CHIPS

COMPUTER-HELP & INSTRUCTIONAL
PROGRAMS FOR STUDENTS
Grades K-12
By Tekelia Kelly's FYI

Since 1995, **CHIPS** has provided quality education technology solutions that enrich and strengthen learners' reading, writing, math, science, engineering, art, and technology skills. **CHIPS** prepares students for every level of their academic and personal development, offering tailor-made and teacher-led instruction that is integrated with best-in-class educational software and state-of-the art technology. Delivered at home, school, learning center, library, church, camp, online or on-site; each **CHIPS** session is made to be hands-on, interactive, multi-sensory, exciting, engaging, and enriching! A positive learning experience, well-designed lesson plans, level-adaptive programming, and helpful 1-on-1-teaching help learners gain the knowledge to perform, achieve and excel. Be it for "drill & skill" practice, or rigorous challenge, **CHIPS** stimulates learners to own their learning experience, and soar! Applying creative teaching strategies, homework help, study aids, and personalized coaching, learners increase their overall performance. Critical thinking and problem solving skills are also developed, building confidence and competence. **CHIPS** supports all learning styles and programs, including at-risk, advanced, typical, initial, special needs, remedial and summer/school breaks.

We happily provide great teachers, PCs, best-in-class software, K-12 school curriculum, learning materials and learner support services!

Mrs. Kelly designs an academic program in reading or math that enhances what the student is actually learning at school, with built in assessments. Much of the success of this program is attributed to Mrs. Kelly's dedication, personality, encouragement, and positive atmosphere provided. Mrs. Kelly's program allows the student room to explore. I wish every child could be exposed to Mrs. Kelly's program." *Opanell Rhodes, Lead Teacher Memphis, TN*

"After honing in on his exact needs, Mrs. Kelly devised a tailor made program to strengthen his weaknesses and enhance his strengths. Mrs. Kelly helped improve my son's reading ability. He has become a more skilled and confident reader. *Kaye Houston, Parent Memphis, TN*

"It helped my test grades.[I liked best]working on the computer." *Jacquis Bates, Whitehaven High Memphis, TN*
Geometry test score increased 60 points after two CHIPS sessions.

"I can tell a difference since she has been involved in your program." *Ms. Gailey, Math Teacher Memphis, TN*

"You are a blessing to the building!"; *Katrina Overton, Asst. Principal, Clifton Hills Elem. Chattanooga, TN*
